[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Results-driven web developer with expertise in JavaScript and React.js. Solid foundation in Node.js, Express.js, and MongoDB for seamless back-end development. Dedicated to creating exceptional user experiences through responsive designs.

Skills

Expertise: HTML5, CSS3, Bootstrap, Tailwind, ReactJS, React Router DOM

Comfortable: JavaScript, DOM, API, JSX, Firebase, JSON Web Tokens(JWT), Daisy UI, React Hook Form, TanStack Query, React To PDF, Recharts, Font Awesome, React Hot Toast, Stripe Payment Gateway

Familiar: Node JS, Express JS, MongoDB

Tools: Visual Studio Code, Chrome Dev Tool, Github, Firebase, Figma, Vercel

Projects

ACraft Hub - A Summer Camp School Website || [Live Site](#) - [GitHub Client](#) - [GitHub Server](#)

Time Period: 8 Days || **Technologies:** React, Firebase, Node JS, Express JS, MongoDB, Stripe, JWT, Tailwind

- This website allows students to enroll and learn Arts & Crafts as extracurricular activities.
- Used Firebase to enable signup and login system for Admin/Instructors/Students with their email and Google account and used JWT to ensure their authorization.
- Role-wise dashboard layouts for Admins/Instructors/Students. Instructors can add classes, Admins can approve or deny that, and Students can select classes and make card payments using Stripe.

Car Stock - A Simple Car Toy's Marketplace || [Live Site](#) - [GitHub Client](#) - [GitHub Server](#)

Time Period: 4 Days || **Technologies:** React, Firebase, Node JS, Express JS, MongoDB

- Used Tailwind, JavaScript, React JS, and JSX to implement the front-end part.
- Used Firebase to enable signup and login system for users with their email and Google account to the website.
- Users can add, update, and delete toys and see all the toy information they have added from the Add A Toy page in a tabular form.

Kitchen Whiz - A Well-liked Chinese Cuisine Website || [Live Site](#) - [GitHub Client](#) - [GitHub Server](#)

Time Period: 3 Days || **Technologies:** React, Firebase Authentication, React To PDF, Bootstrap

- Used JavaScript, React JS, and JSX to design the website.
- Applied Firebase Authentication for users' signup and login system to the website using their Google, and GitHub accounts and provided email and password.
- Users can download blog page data in a PDF format.

Education

BA. Hons in English (Ongoing)

The International University of Scholars
